Prologue:

Ekarikthin'17 Presents **Ciphered Secrets 3.0**.

Coding Event of **Technovya'17**, annual technical fest of **NIT Nagaland**. Are you skilled enough to break codes and expose secrets???. If yes, then wander off to the dark world of mysterious coding challenges, where you will battle with hideous, secretive and brain-twisting programming questions. All this coding-adventure will be brought to life through **Ciphered Secrets 3.0**, a full day online coding event on **HackerRank**. Solve the programming secrets and unlock yourself a prize reward of **8000 INR**.

Event Details:

The event will be organised on www.hackerrank.com/ciphered-secrets-3-0 from 9:00 p.m. of 26th March,2017 to 9:00 p.m. of 27th March,2017. This will be an individual event .

Time Duration of the Event:

- 26th March,2017 9:00 pm to 27th March,2017 9:00 p.m.

Rules and Regulations:

For all those who are not aware of this environment -

- Solution to every problem should be uploaded to the online judge.
- The judge will run the code against a set of test cases which is not available to the contestant.
- If the code returns the expected output to those test cases within the specified time limit, the code is judged to be accepted.
- In case, of wrong answer a "wrong answer" message is displayed.

- In case, the code doesn't return the output within the expected time limit, a "Time limit exceeded" message will be displayed.
- In case the code uses more memory than that is specified, a "Run Time error" message will be displayed.
- If the code doesn't compile properly for the specified language a "Compile Error" message will be displayed.

For questions where special rules apply, it will be clearly mentioned in the problem statement.
